

Speakers Information

Luís de Abreu Nunes, Banco de Portugal

Luís Filipe de Abreu Nunes graduated in Documentation Sciences (Library & Archives) at the University of Lisbon in 1970. He then went on to be an Information officer in the documentation unit of the Portuguese Ministry of Economics from 1968 to 1974. After this he became the Head of the documentation unit of the Banco de Fomento (Developing Bank) from 1974 to 1978. This was followed by his position of Head of the Documentation, Historical Archives and Museum of the Banco de Portugal in 1979. His academic activities include teaching computer applications, new technologies and indexing techniques at the post graduation course in Documentation Sciences, University of Lisbon, from 1987 to 1999. In 1978, Luís Filipe de Abreu Nunes became President of the Portuguese Association of Librarians, Archivists and Documentalists. He is also Treasurer of the European Association for Banking and Financial History e.V., and member of the Board of Management. Luís was invited to speak in several conferences in Portugal, England and France, where he has also published several articles and co-organised several conferences. Lastly, he is a consultant on management and organisation of libraries, archives and information systems. Lately he has been appointed by the Portuguese Government as a member of the committee which prepared the first report of new technologies applied to libraries and archives in the framework of the EU.

Adrian Brown, National Archives

Adrian Brown is Head of Digital Preservation at The National Archives in the UK, where he is responsible for the long-term preservation of born-digital public records created by the UK government and courts, and for the delivery of a range of programmes to support this. These include the TNA Digital Archive, the TNA Web Archiving Programme and PRONOM, the TNA's technical registry and technology watch service. Adrian began his career as a field archaeologist, after studying Medieval Literature at the University of Durham. In 1994, he moved to the English Heritage Centre for Archaeology in Portsmouth, where he was responsible for managing its archaeological archives and other information resources. In this role, he developed and implemented a digital archiving programme to enable the long-term preservation and re-use of the CfA's extensive and diverse digital collections. Adrian moved to the Digital Preservation Department of the UK National Archives in 2002. Amongst his other roles, he is a member of the management boards of the Digital Preservation Coalition and the UK Web Archiving Consortium, and sits on a number of international standards committees. He has lectured and published widely on all aspects of digital preservation.
